

Rebecca Barwick, Ultraceuticals

# GET

# Glowing

Our VIP event at About Faces Noosa was a sensational evening exploring state-of-the-art technology and beauty treatments in Angie Lamb's stunning home salon.

Guests faced facts with specialist speakers showcasing the services and products available including; Karen Barclay who shared the power of the Visia skin analysis (an About Faces exclusive!); Cutera Laser expert Richard Ward who shared remarkable before and after photos; Ricky Innes who talked us through the new Therma Vi Vaginal Rejuvenation treatment; Dr Liza Rady who discussed injectables and Ultraceuticals representative Rebecca Barwick who gave us the lowdown on this game-changing skincare range.

Live demonstrations including Cassie Shelton sharing makeup tips with Youngblood Cosmetics. New and familiar faces enjoyed delicious free-range chicken finger sandwiches from Bird Noosa, washed down with Ruggeri Rosé Prosecco from Nelson Wine Company.

It was all aglow at About Faces Noosa!
